The University of the Witwatersrand, Johannesburg (the “**University**”) is a leading university in Africa, as reflected by its international standing and the quality of its graduates, many of whom have played a major role in founding industries in South Africa, including sectors such as mining, financial services, and information technology. The University prepares students for managerial, professional and leadership positions in the public, private and non-governmental sectors. The University has more than 30000 students and approximately 6500 staff and is one of the biggest sources of skills in Africa.
